

"OKiRACOON" Explanation of important matters, effective on November 1, 2022.

■Introduction:

Please be sure to read this document and the Terms of Use, etc., as described in the following website.

- URL for Terms of Use and other storage locations:

■Upon Signing the Contract:

1. Please check the websites of "NTT docomo", "Softbank", and "KDDI" for service availability in your area before applying.
2. If payment cannot be confirmed, we may contact you at the telephone number or email address you provided (or declared) at the time of the contract. If we are unable to reach the subscriber, we may suspend the use of the service.
3. If you change your telephone number, email address, or other contract information, please promptly submit a change request through the member site or contact our Customer Center. We will not be responsible for any issues, such as communication failure, which may arise from a failure to notify us of these changes.
4. If any false declaration is made in the contract details (name, address, contact information, etc.), or if we deem the declaration to be fraudulent, the contract may be terminated.
5. Failure to pay OKiRACOON service fees and other obligations during the contract period may result in suspension of communication services.

■About our services:

1. OKiRACOON's communication lines are multi-carrier compatible with NTT docomo, Softbank, and KDDI.
 - (1) Since we use a best-effort approach, the actual Internet connection speed is not guaranteed. Communication speed may vary depending on signal conditions, line congestion, and the specific device used."
 - (2) As the service relies on radio waves, it may be unavailable in areas where radio wave reception is hindered, including locations such as tunnels, underground spaces, indoors, behind buildings, mountainous regions, or outside the designated

service area. In addition, communication may be cut off when moving to a location with poor reception during use.

- (3) From the perspective of maintaining network quality and fair use of radio waves, if you engage in abnormal communication (such as illegal downloads, unauthorized use, or large volume communication that significantly occupies the network), we may restrict communication speed.
- (4) Service may be unavailable due to network maintenance, etc.
- (5) We provide a members-only site where you can check your contract details/past usage details.

-URL of the Member Site:

*Available from November 8th.

2. Contract Period:

- The usage time for the initially selected plan is 24 hours from the beginning of the rental.
- You can extend the usage time within this period.
- The extension can be up to a maximum of 72 hours from when the rental starts.
- If the rental device is not returned within the allotted time, additional charges such as late usage fees or settlement charges may apply.

[Plan List]

Service Name	Plan	Overview
